

Backlinks: kya, kahan, kaise

Yeh aap ki working guide hai. Har hissa mein: kis site par jana hai, kya karna hai, aur copy-paste karne wala text. Emails ready hain, bas [brackets] bharein.

Asli baat: links asli madad se aate hain. Directories aur communities shuruaat hain; sab se mazboot links *resource-page outreach* aur *link-worthy content* (tables, calendars, open-source libraries) se aate hain. Roz thora thora, har hafte 5–7 ghante.

1. Rules (inhein kabhi na todein)

✓ Karein	✗ Bilkul nahi
Asli sawaal ka poora jawab, phir link sirf jahan kaam aaye	Links khareedna (Fiverr "1000 backlinks", guest post "for a fee")
Har email personal: us page ka naam aur ek khaas cheez	Link exchange ("aap mujhe link dein, main aap ko")
Har listing ke baad "view source" se dekhein: rel="nofollow" hai ya nahi (sirf note karne ke liye)	"Free listing agar aap humein badge link dein" wali directories
Ek follow-up, 5–7 din baad. Phir chhod dein.	Ek din mein 50 directories, forum signature links, comment spam
Embed widget ka credit link nofollow (Google ka rule)	Footer/sitewide links doosri sites par

Wajah: Google ki link-spam policy aur SpamBrain aise links pakad kar zaaya kar dete hain. AdSense site ke liye manual action bahut mehnga hai.

2. Copy-paste: site ki description

Har directory aur profile mein yahi text use karein (thora badal sakte hain).

Long description

thefreetools is a small collection of free calculators for students and everyday paperwork, in English, Arabic and Spanish.

The first tool is a GPA / grade calculator that handles the US 4.0 scale, the Saudi 5.0 and 4.0 scales, percentage grades and Chile's 1-7 scale. It works out semester and cumulative GPA, lets you edit grade points to match your university, and tells you the average you need next term to reach a target.

Everything runs in the browser: no account, no upload, no watermark. Each page explains the formula with a worked example so you can check the result yourself.

Arabic / Spanish short description (Arab/LatAm sites ke liye)

أدوات مجانية تعمل في المتصفح بدون تسجيل. أولها حاسبة المعدل التراكمي من 5 ومن 4 ومن 100، مع حساب المعدل المطلوب للفصل القادم.

4. Brand profiles (1–2 ghante, ek dafa)

Har profile par naam **thefreetools**, logo, website link aur yeh bio:

Jawab ka template (pehle poora jawab, link aakhir mein)

[Seedha jawab 1-2 lines mein, formula ke saath]

Example: [unke numbers se chhota sa hisaab]

[Ek zaroori note, maslan: "check whether your university replaces or averages retakes"]

If you want to check it quickly, I made a free calculator that shows the steps:

<https://thefreetools.eu/guides/how-to-calculate-cumulative-gpa/>

Tip: link guide ka dein (jahan sawaal ka jawab hai), tool ka nahi. Guide khud tool tak le jaati hai.

6. Resource-page outreach (sab se mazboot links)

6.1 Pages kaise dhoondein (Google mein copy karein)

"GPA calculator" intitle:resources
"student resources" "GPA calculator" -site:thefreetools.eu
inurl:resources "grade calculator" university
"useful links" "GPA" students
site:.edu "GPA calculator" resources

"حساب المعدل التراكمي" "روابط مفيدة"
"مواقع مفيدة للطلاب" المعدل
"أدوات الطالب" جامعة

"calcular promedio" "recursos para estudiantes"
"enlaces útiles" "promedio de notas"
"herramientas para estudiantes" notas 1 a 7

Achha page: **update hota rehta hai**, students/teachers ke liye hai, aur doosre tools ke links pehle se hain. Email "Contact" page ya footer se lein. Na mile to chhod dein.

6.5 Follow-up (sirf ek dafa, 5–7 din baad)

Hi [Name], just a short follow-up on the GPA calculator I mentioned ([URL]). No worries if it's not a fit. Thanks again for the resource page!

6.6 Tracking sheet (Google Sheets mein yeh columns)

Date	Site / page URL	Language	Contact	Sent	Follow-up	Reply	Link live?	nofollow?
2026-10-01	example.edu/resources	EN	name@...	✓	10-08	yes/no	URL	yes/no

Andaaza: 100 emails mein ~5–10 links. Isliye har hafte 15–25 personal emails kaafi hain.

7. Link-worthy content (yeh main banaunga)

Asset	Kab	Kaun link karega
University GPA scale tables (Saudi universities, Jordan universities) — sirf official handbook se verify kar ke	GPA ke baad, agle mahine	Students, student clubs, university resource pages
Printable Hijri calendar 1448 (PDF + page)	Hijri converter ke saath, Ramadan 1448 se pehle	Arab blogs, Pinterest, WhatsApp shares
VAT rates table (Saudi, Chile, Mexico...)	VAT calculator ke saath	Accountants, business blogs
Open-source tafqit aur numeros-a-letras libraries (npm + GitHub)	Numbers-to-words tool ke saath	Developers, Stack Overflow jawab, GitHub
Embed widget "Add this calculator to your site" (credit link nofollow)	2–3 tools ke baad	Teachers, tutors, blogs

Har naya asset live hote hi: Section 6 ki tarah outreach, Section 4 ke profiles par share, aur relevant community mein ek madadgaar post.

8. Journalist requests (optional, hafte mein 20 minute)

Featured.com (naya HARO), **Qwoted** (free plan), **Source of Sources**: journalists sawal poochte hain, expert jawab dete hain. Zyada tar US/English hain, is liye sirf student finance, GPA, education wale sawal chunein. Bade media ka link mushkil lekin qeemti hai.

9. Hafte ka routine

Din	Kaam (aap)	Waqt
Monday	Search Console + Bing: naye queries, indexing errors. Mujhe screenshot bhejein.	20 min
Tuesday	Resource pages dhoondna (6.1), sheet mein 15–25 add	1 ghanta
Wednesday	Emails bhejna (6.2–6.4)	1–1.5 ghante
Thursday	Communities: 3–5 madadgaar jawab (link sirf 1 mein)	45 min
Friday	Follow-ups + sheet update + "Link live?" check	30 min
Mahine mein ek dafa	Ahrefs Webmaster Tools (free) mein backlinks dekhna; naya asset launch + outreach	1–2 ghante

10. Realistic targets (andaza, guarantee nahi)

Mahina	Naye referring domains	Kahan se
October 2026	6–10	Directories, profiles, pehli outreach
Nov–Dec 2026	5–12 / mahina	Outreach + communities

Jan–Mar 2027	10–20 / mahina	Assets (Hijri 1448 calendar, GPA tables, npm)
--------------	----------------	---

Naye pages ko top 10 tak pahunchne mein aam taur par 2–6 mahine lagte hain. Kam-competition wale keywords (jaise Jordan ka "حساب المعدل التراكمي") pehle move karte hain.

11. Links kaise check karein

- **Google Search Console** → **Links**: kaun si sites link kar rahi hain (update hone mein hafte lagte hain).
- **Ahrefs Webmaster Tools** (free): site verify karein (Search Console se import), backlinks aur site audit.
- Kisi listing ka link type dekhna: page par right-click → *View page source* → thefreetools.eu dhoondein → rel="nofollow" ya rel="ugc" hai ya nahi.
