# 22 reels, tool by tool

Har reel ke liye 3 hooks, kya record karna hai, second-by-second script (screen text + voiceover), caption, hashtags aur pehla comment. EN, AR, ES, FR mein. Har number site ke tools se nikala hai, is liye screen par wahi aayega jo voiceover keh raha hai.

## Pehle ye parh lein

### FORMAT

- 1080 × 1920, 30 fps, ~45-50 second (aap ne 45-60 kaha; research kehti hai chhoti reels poori dekhi jati hain, is liye 46 sec ke aas paas rakha).
- Pehle 2 second: hook bolna + hook card frame 1 se. Koi "hello" ya logo intro nahi.
- Har beat par frame badle (zoom, scroll, naya number).
- Captions jalaye hue (Clipchamp auto captions). Zyada log pehle bina awaaz dekhte hain.
- Screen text 6 lafz tak. Text y=230 se upar, y=1440 se neeche aur right ke 230 px mein na ho (wahan Instagram ke buttons hote hain).
- Aakhri line hook ka koi lafz dohraye, taake reel loop par achhi lage.

### BANANE KA TAREEQA (HAR REEL ~40 MIN)

1. "Kya record karna hai" ke steps phone par screen record karein.
2. Voiceover: apni awaaz (EN). Arabic, Spanish, French ke liye Clipchamp ya CapCut ki text-to-speech mein us zubaan ki awaaz chunein (pehle sun kar check karein), ya koi jaanne wala dost.
3. Clipchamp: 9:16 project, recording + voiceover, beat sheet ke waqt ke hisaab se kaatein.
4. Har beat ka "Screen text" card lagayein, phir auto captions.
5. Export 1080p. Caption aur hashtags copy-paste. Pehla comment post karte hi.

### KAHAN POST KARNA HAI

- **Instagram Reels:** caption + 3-4 hashtags, link bio mein.
- **YouTube Shorts:** title = hook card, description = caption + tool ka link. "Related video" mein us tool ki lambi video ya overview video.
- **X:** video + caption, link pehle reply mein.
- **Facebook page:** Meta Business Suite se IG ke saath hi.

### ZUBAAN KE HISAAB SE ACCOUNT

- Abhi ek hi account par sab zubanon ki reels theek hain. Caption usi zubaan mein jo reel ki hai.
- Agar kisi zubaan ki reels zyada chalein (jaise Spanish), tab us ke liye alag account sochein.
- Hooks ke aage number (jaise 78) English hooks ka score hai, hamare hook-checker se. Doosri zubanon ke score nahi hain.

## YouTube overview video kahan kahan use karein

| JAGAH | KAISE |
|---|---|
| Home page | Lag chuki hai (click par load, VideoObject schema ke saath). |
| YouTube channel | Channel trailer (naye visitors ke liye) aur "Featured video" bana dein. Har Short mein "Related video" mein yahi. |
| Product Hunt | Listing ke video field mein YouTube link. |
| AlternativeTo, SaaSHub | Listing ke media/video mein (jahan option ho). |

| JAGAH | KAISE |
|---|---|
| X profile | Video seedha upload karke post ko profile par pin karein. |
| LinkedIn | Native upload (horizontal yahan theek lagta hai) + 3 line ki kahani: kyun banaya. |
| Facebook page | Page ka featured video. |
| Reddit | Sirf un subreddits mein jahan apna project dikhana allowed ho (r/SideProject jaise). Rules pehle parhein. |
| Instagram | Horizontal video Reels mein patti ke saath aati hai. Iski jagah R22 (vertical cut) post karein. |
| Email signature, GitHub profile | "See the tools in 2 minutes" + link. |

## Kis hafte kaun si reel (90 din ke plan ke saath)

R05 (8/5/1448) ko 19 October 2026 se pehle post karein, kyunke log abhi yahi tareekh dhoondh rahe hain. Agle mahinon ke liye note mein nayi tareekhein hain. Jo reel sab se achi chale, agle hafte usi formula par 2 aur.

## Reach kaise barhayein (2026 research)

### INSTAGRAM

- **Sirf 5 hashtags.** 18 Dec 2025 se Instagram ek post ya reel mein zyada se zyada 5 hashtags allow karta hai. Hum 4 rakhte hain. Comment wale hashtags bhi inhi mein gine jate hain.
- **Caption ki pehli line mein keyword.** "more" se pehle sirf ~125 characters dikhte hain, aur Instagram search caption ke lafz padhta hai. Har caption ki pehli line mein wahi phrase hai jo log search karte hain.
- **Alt text likhein** (Advanced settings). Har reel ka alt text neeche table mein hai.
- **Originality:** doosre app ke watermark (TikTok, CapCut template) wali video, ya kisi aur ki video repost karne se recommendations kam hoti hain. Apni recording, saaf export.
- **Trial Reels:** professional (creator/business) account par ye option aata hai: reel pehle sirf non-followers ko dikhti hai. Eligibility (200 ya 1,000 followers) par sources mukhtalif hain, apne app mein dekh lein. Naye hook test karne ke liye best.
- **Profile:** naam ke field mein keyword ("thefreetools | Free calculators"), bio mein ek kaam ki line, aur site ka link.

### YOUTUBE SHORTS

- **Title mein search phrase shuru mein,** ~60 characters tak, title mein hashtag nahi. Har reel ka title neeche tayyar hai.
- **Description:** pehli line keyword wali, phir tool ka link, aakhir mein #Shorts + 2 hashtags (3 se 5 kul). Pehle 3 hashtags title ke upar dikhte hain.
- **Asal faisla retention karta hai,** metadata nahi. Pehle 3 second ka hook aur poori dekhi jane wali length sab se zaroori hai.
- **Keyword bol kar bhi:** voiceover mein pehle kuch second mein wahi phrase aata hai aur captions jale hue hain, to YouTube ise samajh leta hai.
- **Related video:** har Short ko overview video (ya tool ki lambi video) se link karein.

### X

- Video seedha X par upload karein (YouTube link nahi).
- Post mein link se reach kam hoti hai ya nahi, is par 2026 mein bhi behes hai. Safe tareeqa: link pehle reply mein. Har reel ka post aur reply neeche hai.
- Kam post, ek hi topic par, aur apne niche ke bade accounts ke posts par kaam ke replies.

### HAR PLATFORM PAR

- Hafte mein 3 se 4 reels, ek jaisa waqt. Post ke baad pehle ghante mein comments ka jawab.
- Har platform par alag upload (ek app ka watermark doosre par nahi).
- Jo reel achi chale (views aur poori dekhi gayi), agle hafte usi formula ki 2 aur. Jo na chale, us ka sirf hook badal kar Trial Reel mein dobara.
- Har hafte checklist mein likhein: kaun si reel, views, average watch time.

Sources: Later, Sked Social, Digital Applied (Instagram 5-hashtag limit, 18 Dec 2025); Later aur Toptal (Instagram SEO); hashtagtools.io aur Miraflow (Shorts title/description); Storrito aur Creatorflow (Trial Reels, originality); SocialPilot aur PPC Land (X links). Zyada tar marketing blogs hain, asal nateeja apne Insights se dekhein.

## Naye tool ideas: log kya dhoondh rahe hain

Reddit meri tools ke liye block hai: search aur browser dono ne Reddit kholne se mana kar diya. Is liye maine Google autocomplete ke sawal dekhe ("is there a website that…", "pagina para…", "موقع يحسب…", "site pour…") aur Google Trends. Ye wohi sawal hain jo log Reddit par bhi poochte hain. Andazan volume jaane-pehchane keywords ke muqable mein hai, Semrush se pakka karein. Ye ideas keyword sheet ke naye tab "New tool ideas" mein bhi hain.

| IDEA | ZUBAAN / MULK | SABOOT | KYUN HAMARE LIYE | FAISLA |
|---|---|---|---|---|
| **Nisba muwazana** (حساب النسبة الموزونة) | Arabic / Saudi | Trends: "2~ "حساب الموزونة guna "(12,100) "حساب الضريبة, yani andazan ~26,000/mahina. Research CSV mein 9,900. | GPA tool ka bhai: university admission ka weighted score. Sehat ya qanoon ka topic nahi. | **Sab se pehle** |
| **Calculadora de aguinaldo** | Spanish / Mexico | December ka Trends peak hafta "foto tamaño infantil" ke average se ~3.5 guna. Aguinaldo 20 Dec tak dena hota hai. | Mausami: late November tak live (90 din plan, hafta 9). | **Nov mein** |
| **Days between dates** (calculadora de días, حساب عدد الأيام بين تاريخين, calculadora de datas, kalkulator hari) | ES, AR (Egypt), PT, ID | Mexico "calculadora de dias" ~9,000/mahina, har zubaan ke autocomplete mein. | Age tool ka engine pehle se hai, kaam kam. | **Jaldi** |
| **Number to words: Indian rupees** | English / India | "online number to words converter indian rupees" autocomplete mein. | Hamara tool lakh/crore pehle se karta hai. Sirf ek page ya guide. | **Jaldi, aasan** |
| Calculadora de horas (hours worked) | ES, PT, FR | Mexico ~5,900/mahina; Brazil aur France ke autocomplete mein bhi. | Chhota tool, har zubaan. | Baad mein |
| French versions: calculateur de moyenne, TVA Maroc | French / France, Morocco | "calculateur de moyenne", "calcul tva maroc", "site pour calculer sa moyenne" autocomplete mein. | GPA aur VAT ke FR page abhi nahi, engine pehle se hai. | Baad mein |
| PDF/video to link, file to QR (تحويل pdf إلى باركود، تحويل الفيديو إلى رابط) | Arabic, English | Saudi autocomplete mein; "file to qr code" world Trends mein. | File-sharing tool ke saath jurta hai. | File tool ke saath |
| Calculadora de finiquito | Spanish / Mexico, Spain | Mexico ~16,000/mahina, saal bhar. | Labour law: qanoon ki ghalti ka khatra aur bade sites. Ehtiyaat. | Ruk kar |
| Tax / zakat calculator Pakistan | English / Pakistan | PK Trends: "tax calculator" airforshare ka ~55%, June budget par peak. | Urdu/Pakistan locale ke saath; FBR slabs har saal badalte hain. | Urdu locale ke saath |
| Weton (Javanese calendar) | Indonesian | Indonesia Trends: "weton" snapdrop se ~19 guna. | Bohat bara, magar nayi zubaan aur cultural rules; competition check karna hoga. | Sirf note |
| Inheritance (حاسبة الميراث، wirasat) | Arabic, Pakistan | Saudi mein chhota (~700/mahina). | Deeni aur qanooni, ghalti ka khatra zyada. | Nahi |

## Top 3 ideas: thori aur gehri research

### 1. NISBA MUWAZANA (SAUDI)

**Formula (scientific track, aam):** = النسبة الموزونة الثانوية% × 30% + القدرات × 30% + التحصيلي × 40. Misaal: 90, 80, 85 → 27 + 24 + 34 = **85**.

**Masla aur mauqa:** har university ke weights alag hain (jaise King Fahd University ke liye 20/30/50 bataye jate hain, aur kuch colleges sirf thanawiya + qudrat lete hain). 2026/27 ke kuch official guides abhi publish nahi hue.

**Competitors:** khaleejcalculators.com (har university ka alag page), hijri-calendars.com, mhtwyat.com, saudipedia.com.

**Hamara angle:** weights khud badalne ka option + har university ka source link + "nisba mukafi'a" (2 hisson wali) ka farq. Sirf wahi weights dikhayein jin ka official source ho.

### 2. AGUINALDO (MEXICO)

**Qanoon:** Ley Federal del Trabajo, art. 87: kam az kam 15 din ki tankhwah, 20 December se pehle. Saal poora na ho to proportional.

**Formula:** salario diario × 15 ÷ 365 × días trabajados. Misaal: $500 rozana: poora saal $7,500; 183 din ≈ $3,760.27; 91 din ≈ $1,869.86.

**Dhyan:** ISR ki chhoot 30 UMA tak; UMA ki 2026 value official source (INEGI) se leni hogi. Variable tankhwah par pichle 30 din ka average (PROFEDET).

**Hamara angle:** proportional + ISR exempt hissa + "cuánto me toca" ki seedhi table, Spanish mein, 15 Nov tak live.

### 3. DAYS BETWEEN DATES (ES, AR, PT, ID)

**Competitors:** Spanish mein Omni Calculator, Calendarr (Spain/Argentina), aur kai template sites. Arabic mein hijri-calendars.com (Hijri + Gregorian, Saudi weekend). Arabic results kam hain, yani wahan bheed kam hai.

**Hamara angle:** Hijri aur Gregorian dono, din ko shamil karne ka option (inclusive), kaam ke din (Saudi Fri-Sat weekend, Mexico Sat-Sun), aur ek page par weeks/months bhi. Age tool ka engine pehle se hai.

Ek baat jo is research mein saaf hui: Arabic mein hamare asal competitors **khaleejcalculators.com** aur **hijri-calendars.com** hain, dono bohat se calculators wali sites. Inke pages par kya hai (weights, sources, FAQ) wo dekh kar hum har idea mein behtar aur zyada sourced page bana sakte hain. Sources: khaleejcalculators.com, saudipedia.com, mhtwyat.com; LFT art. 87 (sdv.com.mx), PROFEDET (gob.mx), Expansión; Omni Calculator, Calendarr.

### REDDIT KHUD CHECK KARNE KE LIYE (GOOGLE MEIN YE SEARCH KAREIN)

- `site:reddit.com "is there a website" hijri`
- `site:reddit.com snapdrop alternative 2026`
- `site:reddit.com airforshare`
- `site:reddit.com "passport photo" free "at home"`
- `site:reddit.com "calculadora de aguinaldo"`
- `site:reddit.com "i wish there was" calculator`

Jo post mile us ka link sheet ke "Notes" mein daal dein. Wahan madad wala jawab dena (link sirf zaroorat par) backlink aur traffic dono deta hai.

## KYA RECORD KARNA HAI

1. /vat-calculator kholein, "Remove VAT", rate UK 20%.
2. 120 likhein → net 100, VAT 20.
3. Saudi 15% chunein, 1150 → 1000 aur 150.

## SCRIPT (BEAT SHEET)

| 0:16-0:24 | **£120 → £100 + £20** | Type 120. Net £100, VAT £20. |
| 0:24-0:32 | **£96 IS £4 SHORT** | Subtract 20% and you're £4 short on every £120. |
| 0:32-0:40 | **SAUDI 15%: 1,150 → 1,000** | Same for Saudi 15%: 1,150 riyals is 1,000 plus 150 VAT. |
| 0:40-0:46 | **thefreetools.eu** | Free at thefreetools dot eu. £100, never £96. |

### CAPTION (COPY-PASTE)

Removing 20% VAT from £120:
120 ÷ 1.2 = £100 net + £20 VAT
Not 120 - 20% = £96.

Works for any rate: UK 20%, Saudi 15%, UAE 5%. Free VAT calculator, link in bio.
